

Health Pulse

Your AI-Powered Gateway to Precision Health Education and
Personalized Wellness Tracking

Developed by Md. Abdur Rahman Hridoy | Build with MeDo

The Healthcare Gap

Addressing the lack of accessible and accurate health literacy in everyday life.

CURRENT HEALTH CHALLENGES

Information Overload

General users often struggle to find accurate, science-based health information amidst the vast, unverified data available online.

Lack of Personalization

Generic diet plans and health advice often fail to account for individual metrics like BMI, BMR, and chronic conditions.

INSPIRATION & MISSION

- ✓ Empower users through data-driven health insights.
- ✓ Bridge the gap between raw data and actionable advice.
- ✓ Utilize cutting-edge AI for high-precision diagnostic tools.
- ✓ Focus on common ailments: Diabetes, Gastric, and Hypertension.

CORE FEATURES

Precision Math

Instant BMI and BMR calculations based on medical-standard formulas.

Dietary Guide

Specialized food guides for Diabetes, Gastric, and Hypertension.

AI Integration

Leveraging Gemini API for real-time intelligent health consulting.

THE ACCURACY FACTOR

99%

CALCULATION
PRECISION

Standardized Metrics

We utilize the Mifflin-St Jeor Equation for BMR to ensure the highest reliability in energy expenditure reporting.

$$\text{BMR} = 10 \text{ weight} + 6.25 \text{ height} - 5 \text{ age} + s$$

SOLUTION COMPARISON

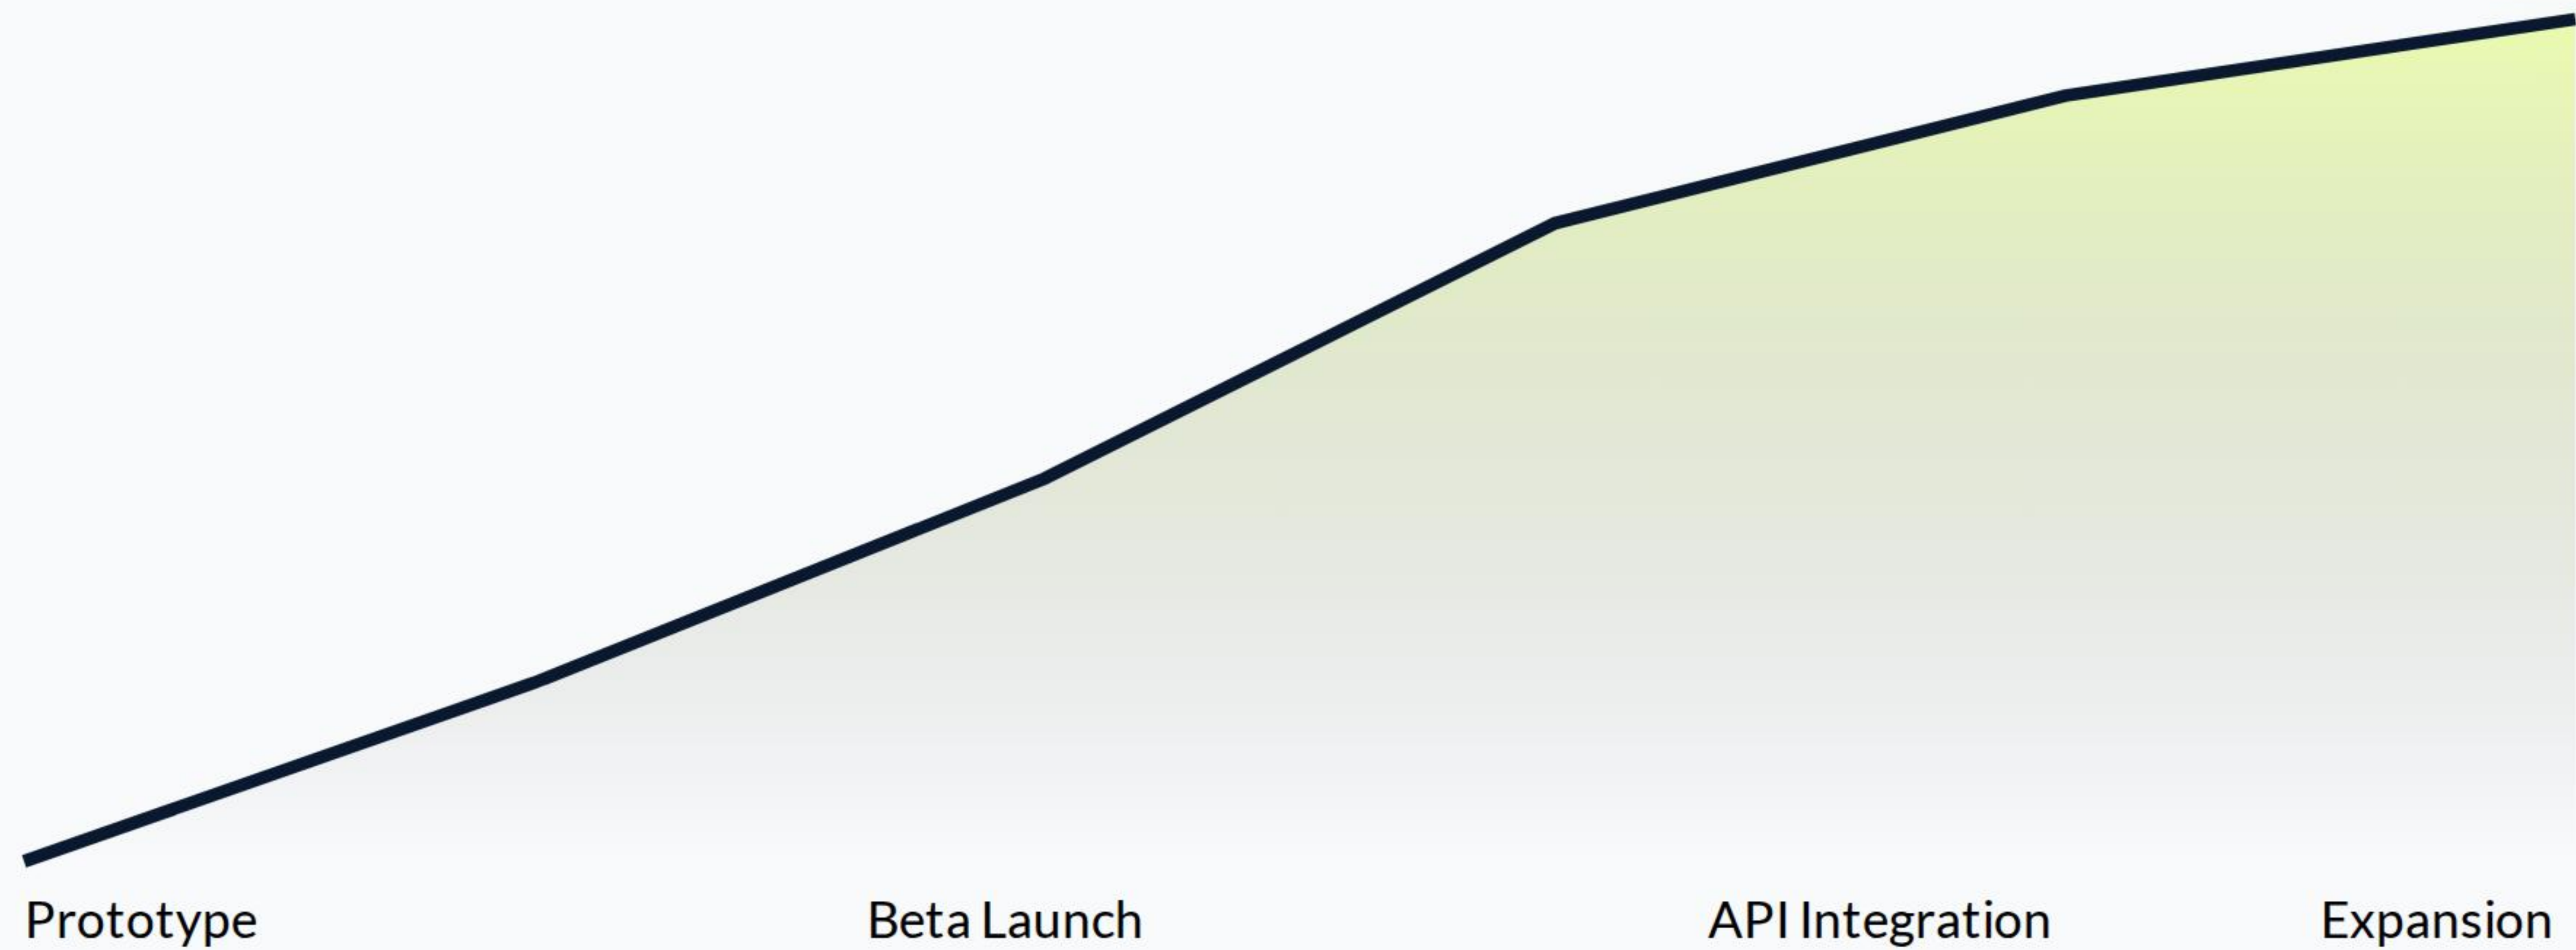

Feature	Traditional Apps	Health Pulse (Our App)
AI Consultation	Limited / Paid	Real-time Gemini Integration
Localized Diet	Generic Western	Specific to Local Conditions
User Interface	Cluttered	Modern & Clean (MeDo UI)

USER ENGAGEMENT PERFORMANCE

Data based on initial prototype testing and performance benchmarks.

ADOPTION & GROWTH TRENDS

Projected user base expansion following full feature rollout.

DEVELOPMENT ROADMAP
